A 15-inch gun captured by the Australians on the Somme.
(Note the man standing on its barrel).

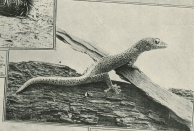

Steep-sided slopes stormed by the Australians in a recent attack.

SOMETIMES SEEN IN THE BUSH.

Overland photo

Spiny and scaly, an Echinosaurus curled up for defense. This animal is one of the earliest forms of the mammalian class living today; it has a long life, which is hidden in its marginal pouch in which it also hides its young.

A spiny-tailed lizard, when attacked, it curls its tail upwards and discharges numerous jets of a fine irritating fluid from all along the base of its tail.

THE LOGS OF WINDSOR.

Here can be seen some of the thousands of staves left behind by Peter in his failed retreat in France. Many of them were retained to him through the war.
